

NATIONAL CHILD ABUSE PREVENTION MONTH

"Month of April... set aside to encourage the prevention of Child Abuse (including Child Sexual Abuse) on a national level. We gladly support this national initiative. I feel strongly that every day and every month, our focus should be on Child Sexual Abuse Prevention. Unfortunately, we live

in a society where innocent children (birth to 17 years of age) are being raped, molested and/or sexually exploited every single day. We live in a society where some make a career out of trafficking children for commercial sexual exploitation. We live in a society where many turn a blind eye to this crime against children. We live in a society that now seems to expect that we are "politically correct" in speaking out against child molesters & pedophiles. I was once told that I shouldn't use the word "perverted". Seriously? What would you call this act against children? America... A Safe Place for Children! That is the goal of SpeakingOut against Child Sexual Abuse, Inc. (aka SpeakingOut) not just during the month of April, but all year long."
